	Balance gained by the French from us Yearly, besides the Toys, Gloves, Laces, &c. ———		965128 17 04				
			1136150 04 00				

By the Account above, your Lordships may perceive, that the Linnen and Silk Manufactures only, Imported from *France*, amount to upwards of Eight Hundred Thousand Pounds, and the Manufactures of Wooll and Silk Exported from *England* thither, do not amount to Eighty Five Thousand Pounds. As also all other Commodities of the Product and Manufacture of *England* Exported into *France*, do not amount to Ninety Thousand Pounds more: Whereas the Wines, Brandies, and other Commodities of the Product and Manufacture of *France* Imported into *England*, amount to upwards of Three Hundred and Twenty Thousand Pounds; besides an incredible Value of Toys, rich Apparel, Point-Lace, &c. So that it is apparent, that the Exports of our Native Commodities and Manufactures to *France*, are less in Value by at least One Million of Pounds Sterling, than the Native Commodities and Manufactures of *France*, which we receive from thence: And if it please your Lordships to reflect thereupon, your Lordships will easily discern the great Prejudice the *English* Nation hath sustained, and the great Advantage the *French* have, and do daily make, by holding this Treaty in Suffeience; this Nation being upon the Matter excluded Trade thither, while in the mean Time the *French* enjoy all and as great Advantages as they can reasonably expect by any Treaty.
